

TEXAS ADMINISTRATIVE CODE: As in effect on 5/11/2026.

## TITLE 16. ECONOMIC REGULATION

### PART 4. TEXAS DEPARTMENT OF LICENSING AND REGULATION

#### CHAPTER 83. BARBERS AND COSMETOLOGISTS

##### §83.104. Health and Safety Standards--Esthetician Services.

- (a) Practitioners must wash their hands with soap and water, or use a liquid hand sanitizer, prior to performing any services on a client. Gloves must be worn during any type of extraction.
- (b) Equipment, implements, tools and materials must be properly cleaned and disinfected after servicing each client in accordance with this rule.
- (c) Facial chairs and beds, including headrest for each, must be cleaned and disinfected after providing service to each client. The chair or bed must be made of or covered in a non-porous material that can be disinfected.
- (d) After each client, multiple use implements such as metal tweezers and comedone extractors must be cleaned and disinfected.
- (e) The following implements are single-use items and must be discarded in a trash receptacle after use: cotton pads, cotton balls, gauze, wooden applicators, disposable gloves, tissues, thread, disposable wipes, lancets, fabric strips and other items used for a similar purpose as one or more of the items listed above.
- (f) The following items that are used during services must be replaced with clean items for each client: disposable and terry cloth towels, hair caps, headbands, brushes, gowns, makeup brushes, spatulas that contact skin or products from multi-use containers, sponges and other items used for a similar purpose as one or more of the items listed above.
- (g) Items subject to possible cross contamination such as creams, cosmetics, astringents, lotions, removers, waxes, moisturizers, masks, oils and other preparations must be used in a manner so as not to contaminate the remaining product. Applicators must not be re-dipped in product. Permitted procedures to avoid cross contamination are:
  - (1) Disposing of the remaining product before beginning services on each client; or

(2) Using a single-use disposable implement to apply product and disposing of such implement after use; or

(3) Using an applicator bottle to apply the product.
