

Tuition Payment

How does your tuition payment affect your exam eligibility?

- Tuition status is only a factor in the issuance of exam eligibility when a student has earned hours for a specific license type at two or more schools.
 - **Example:** A student enrolled in the manicurist program earned 300 hours at School A and 300 hours at School B. The student did not pay their tuition for their enrollment at School A and would not be able to use the 300 hours earned towards their hours required for exam eligibility.
- The department considers hours earned at two or more schools to be “transfer hours”. This means that in order to certify the course completion, tuition must be paid.
 - **Texas Occupation Code Sec. 1603.2313 (b)(c)** - Transfer of Hours Instruction.

Ways to update your tuition status:

- If your tuition is marked unpaid for a recent enrollment, contact your school for a resolution.
- If your school cannot update the tuition status (due to an old enrollment) and you *have* paid tuition, you can submit proof of payment to our **Education and Examination webform**.
- If the hours remain unpaid and you would still like to take your exam, they can be made up at another school. The hours will need to be marked as paid when you complete the remaining program.

Please let us know if you have any questions or concerns by submitting a request to the webform linked above.
