

Barber & Cosmetology Exam Resources

Contact Information & Name Changes

How does TDLR receive my personal and contact information?

Your personal and contact information can be received by the department in several ways:

- **School enrollment process (SHEARS)**
- **Student permit application**
- **Student request to update information**

This means that in most cases, your school is responsible for providing your contact information to the department. It is vital that schools provide accurate information upon enrollment to ensure issues do not occur later in the licensure process.

Test takers Responsibility

- Although students do not directly control personal information received by the department, it is ultimately the responsibility of the student to ensure all their information is listed correctly.
- **What to verify before taking your exam:**
 - First, Middle (if applicable), and Last Name
 - Mailing Address
 - Email Address
 - Phone number

How can I update my information with TDLR?

Contact Information:

- To update your contact information, you can submit a request to our **General Inquiries Webform**. Please ensure that you write a clear message of what changes need to be made.

Name Change:

- To update your name with the department, you can submit a request to the webform linked above. In the request, you will need to provide a copy of a valid government-issued ID and a clear explanation of what needs to be changed.
- If you are updating your name after your exam eligibility has generated, please be sure to include in your request that the information will need to be updated with PSI as well.

Why is this important?

- Maintaining current contact information with TDLR will help the department and PSI notify you of your eligibility status, provide you with scheduling instructions, and important updates.
- During exam check-in, PSI will match your approved identification (ID) to the information sent by TDLR. It is crucial that your ID matches the PSI data received by TDLR accurately, or you will not be allowed to proceed with taking your exam.
